

## Legion offer City & Guilds Level 2 Certificate for Civil Enforcement Officers (Parking) 1889

City & Guilds have confirmed Legion Group as an approved centre for the provision of training for the City & Guilds Level 2 Certificate for Civil Enforcement Officers (Parking) 1889, which is the industry standard and covers both the principles behind CPE and the new areas of enforcement and procedures it introduces.

To help both local authorities and Civil Enforcement Officers achieve a smooth transition to CPE, Legion Group have developed a 3 day specialist training course for qualified Parking Attendants, and also offer a full 5 day Civil Enforcement Officer training course for new entrants into parking. The Level 2 certificate provides assurance that a Civil Enforcement Officer has the essential knowledge required to do their job effectively prior to them commencing on street duties

All the training packages are delivered by industry approved parking trainers who hold the City & Guilds Level 3 qualification in Delivery Learning and have a wide range of practical experience in Civil Parking Enforcement. Courses may be run from one of our City & Guilds approved training centres or may be carried out in-house if preferred.

As well as providing training courses for Civil Enforcement Officers, Legion also offer Skills for Security accredited training for Security Guards, Supervisors, and CCTV Operators, First Aid and Health & Safety Training, and bespoke management training courses.
